Software Engineering Intern | MERN Stack | DSA | REST APIs | Frontend Development

EDUCATION

Cochin University of Science and Technology (CUSAT) **Aug 2024 – May 2028**
B.Tech in Computer Science and Engineering **CGPA: 7.85**

Raj Narayan College, Hajipur **Apr 2022 – Apr 2023**
Senior Secondary (Class XII) – Science (PCM) **81.2%**

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, SQL
Backend: Node.js, Express.js, REST APIs
Frontend: HTML, CSS, JavaScript
Database: MongoDB, SQL
Core: Data Structures & Algorithms, DBMS, Operating Systems, Software Engineering
Tools: Git, GitHub, Terminal (Linux/Unix)

EXPERIENCE

MERN Stack Development Intern — BeeSkilled (Virtual Internship) **6 Weeks**

- Built **RESTful APIs** using **Node.js** and **Express.js** to support a to-do list application and a personal portfolio platform.
- Developed a **project dashboard** for tracking and managing multiple ongoing projects, including status updates and task organization.
- Designed and integrated **MongoDB** schemas to handle CRUD operations for tasks, portfolio content, and project records.
- Worked across the full **MERN stack**, connecting frontend interfaces to backend APIs for real-time data updates.

PROJECTS

Tic-Tac-Toe Game *HTML, CSS, JavaScript*

- Built a fully interactive Tic-Tac-Toe game with winner detection, draw logic, and turn management.
- Used JavaScript event handling to update the DOM dynamically without page reloads.
- Designed a clean, responsive game board with a minimal and intuitive UI.

Restaurant Landing Page *HTML, CSS*

- Developed a multi-section restaurant landing page with menu, about, services, and contact sections.
- Applied responsive design principles and consistent CSS styling for a user-friendly layout.

College ID Card Generator *HTML, CSS*

- Designed a responsive ID card layout displaying student name, photo, roll number, and department.
- Focused on clean markup structure and precise CSS alignment to produce a print-ready design.

Butterfly Animation Web Page *HTML, CSS, JavaScript*

- Implemented smooth CSS animations and transitions for interactive butterfly movement effects.
- Combined HTML structure, CSS keyframes, and JavaScript to create a visually engaging page.

RELEVANT COURSEWORK

DSA: Arrays, strings, recursion, dynamic programming
OS: Process scheduling, memory management, concurrency
DBMS: SQL, indexing, normalization, query optimization
Software Engineering: SDLC, design principles, version control

ACHIEVEMENTS

- Solved **175+ Data Structures and Algorithms problems** across LeetCode and GeeksforGeeks, covering arrays, strings, recursion, and DP.
- Maintained a **100+ day continuous coding streak**, demonstrating consistent daily practice.
- Secured **3rd prize in Hindi Debate** at CUSAT Arts Fest.
- Scored **90 percentile in JEE 2023** and **93 percentile in JEE 2024**.
